Paul Ekman is the author of Emotions Revealed. He is a pioneer in the study of emotions and has conducted over 50 years of research. His work in the fields of emotion, trust, and deception is unparalleled. Ekman has been an emotional expression consultant with groups as far ranging as the CIA and the Pixar Animation Studio.

In recent years, the field of emotion has grown enormously—recently nearly 250 scientists were identified who are studying emotion. In this article, I report a survey of the field which revealed high agreement about the evidence regarding the nature of emotion, supporting some of both Darwin’s and Wundt’s 19th-century proposals. The study surveyed nearly 250 scientists who are studying emotion.

Ekman has conducted over 50 years of research and is listed as one of the world’s most influential people in the field of emotion. His work has been widely recognized, and he has been awarded numerous prestigious awards for his contributions to psychology.

Ekman has established Paul Ekman International PLC under license to create a network of licensed companies. He has also authored several books on emotion, including "Emotions Revealed: Recognizing Facial Expressions of Feelings" and "What the Face Reveals: Basic and Applied Studies of Spontaneous Expression and Nonverbal Behavior."
